

Sebastián Ocampo Palacios

Economist and public-policy researcher | Housing, data infrastructure, and causal evaluation

Mexico City, Mexico | socapal@outlook.com | github.com/socapal | Portfolio | Refugio Económico

Profile

Economist and public-policy researcher with experience in housing, institutional data infrastructure, and causal evaluation. Builds reproducible analytical systems from administrative, survey, and territorial data; coordinates cross-institutional research; and translates quantitative evidence into decision-ready products.

Professional Experience

Instituto del Fondo Nacional de la Vivienda para los Trabajadores (INFONAVIT) *Jul. 2022–Present*
Intermediate Analyst, Institutional Information Analysis *Mexico City*

- Develop data structures and reporting standards for the **Programa de Vivienda para el Bienestar (PVB)**, a flagship federal housing program, coordinating across institutional teams to enable and support program monitoring.
- Contribute to the design and implementation of the **Sistema Integral de Datos Infonavit (SIDI)**, an internal data platform that integrates strategic information for planning, reporting, and institutional decision-making.
- Coordinate data validation, metadata, reporting standards, and business-rule alignment with information-owning areas; support the transition from fragmented requests and manual reconciliation toward reusable data assets.
- Produce institutional analyses, periodic indicators, technical notes, and executive reports on housing, mortgage, labor-market, and operational trends for public release and for senior decision-makers.
- Support the **Sistema de Información INFONAVIT (SII)** and the publication of official public statistics.
- Coordinate research and data partnerships with INEGI, SEDATU, J-PAL Latin America and the Caribbean, universities, and other public-interest institutions; organize research seminars and knowledge-exchange activities.

Agencia Digital de Innovación Pública (ADIP) *2021*
Data Analyst, Open Government Directorate *Mexico City*

- Developed a geospatial analytical map to support an Evalúa CDMX recommendation on the distribution of public food-kitchen services.
- Worked with administrative and open-government data to support public-service diagnostics and data-driven policy.

Laboratorio Nacional de Políticas Públicas *2021*
Research Analyst, Project-based *Mexico City*

- Reviewed literature and indicators on sustainable finance and urban sustainability; contributed to evidence synthesis and indicator-development work.

Conferencia Mariano Otero *2019–2020*
Coordinator, XVI Edition *Mexico City*

- Organized academic discussions, workshops, and interdisciplinary projects on public affairs, economics, and the social sciences.

Research and Selected Projects

Sistema Integral de Datos Infonavit (SIDI) *2025–Present*
Institutional data infrastructure initiative for a shared repository, internal consultation platform, metadata, validation rules, and accountable data stewardship.

- Supports research on digital public infrastructure, institutional memory, data governance, and the role of information systems in state capacity.

Disaster Declarations and Formal Housing Markets in Mexico *2024–Present*
Master's thesis / working paper on how disaster declarations and the institutional response relate to housing-production and sales timelines.

- Constructed municipal quarterly and monthly panels for 2015–2025 from CENAPRED disaster declarations, SNIIV/RUV housing data, and territorial covariates.
- Implemented staggered difference-in-differences and event-study diagnostics using Callaway–Sant'Anna methods; documented assumptions, pre-trends, coverage, and support conditions.
- Developed a reproducible analytical pipeline that separates data integration, statistical estimation, result packaging, and downstream dashboard/reporting use.

Impact of Protected Areas on Municipal Marginalization and Income *2022*
Undergraduate thesis using quasi-experimental methods to examine socioeconomic effects associated with protected areas in Mexico.

Education

Universidad Iberoamericana

Master of Public Policy (coursework completed; thesis pending)
